

VANISHING HOUSE A POLICE PROBLEM

Jersey City Structure Carried
Away in the Night and the
Owner Now Anxious About
Ground It Stood On.

The police of Jersey City have a problem in a vanishing house, a two-story structure, that was formerly located at No. 710 Tonnelle avenue. The owner, Mr. Scholff, a New York brewer, reports that it has mysteriously disappeared and wants to know whether the ground, it stood on is liable to evaporate or drop through a hole.

Mr. Scholff came from New York to inspect his property, and was much surprised to find that only the foundation was left. He inquired among the folk living in that section as to what had become of the structure, but none was able to furnish him any information.

So the owner journeyed to the Sixth Precinct station house, on Central avenue, and shocked the police by his unusual complaint. They had not even missed the house. However, they promised to trace it, and with that bit of consolation the owner went home.

The police have made an investigation and learned that the work of carrying away the building had been in progress for more than three weeks.

There are not many dwellings in the neighborhood in which it stood, and the house could probably have been moved away intact had the purloiners it in that form. But apparently they did not. They tore it down at leisure and carried the parts away in wagons. They usually worked at night, and knowing that the building belonged to a New York man, the people in that section imagined that it was under his instructions that the work of demolition was being carried on.

The police now they are making strenuous efforts to keep the thieves from coming back for the foundation. They claim to have knowledge of some of the men engaged in carrying the building away and promise arrests in the near future.

DOCTOR "FOUND HIMSELF."

Wife Had Asked Police to Search for Him.

Business in Wall street took Dr. Ernest Besselen, of No. 343 Fifth avenue, away from his home yesterday morning, and as he did not return at a late hour last night his wife, in great alarm, notified the police of the Tenderloin station. When Mrs. Besselen returned to her home from the police station she found her husband quietly resting in one of his office easy chairs. "My wife is a nervous woman," said the doctor to an Evening World reporter today. "I had business in Wall street, and later I met a friend, with whom I dined."

The police had sent out an alarm for the doctor and he notified them he had "found himself."

\$5,000 DIAMOND ROBBERY.

CLEVELAND, Oct. 23.—Burglars gained an entrance early today to the store of the Deutsch Jewelry Company, No. 223 Euclid avenue, and secured diamonds to the value of \$5,000. The police thus far have not been able to secure any trace of the burglars.

HERE'S CHANCE FOR MOTHER— TRUST RAISES PRICE OF PIE

"Down with the Trust, but Not the Trust Pie,"
Is Now the Universal Cry.

Oh, by gosh!
The Pie Trust has raised the price of pie.

From end to end of Greater New York there is weeping and wailing and gnashing of teeth—and the teeth are not gnashing on pie.

Pies that have hitherto been sold for three and one-half cents will cost four cents in the future. The Pie Trust has said it, and the small restaurant-keepers have decided to eliminate the succulent pie from the menu.

The lunch counter men have already held one meeting, at which they denounced the action of the Pie Trust, and they will hold another to-night at McKinley Hall, in Fourth street, between Second and Third avenues.

There is talk of a co-operative pie factory and a general boycott of trust-made pies.

It is proposed that each restaurant man in the organization should post a forfeit of \$100 as surety that he will not violate the agreement.

Prominent consumers of pie who were seen by representatives of The Evening World this morning expressed their indignation at the action of the Pie Trust in strong terms.

"It's a gosh dinged outrage," said J. Higgins, a prominent truckman of Beekman street, who was born in Maine. "Let the all-fired trusts do with the shipping of the world as they will, let 'em send the price of coal scootin' into the sky, let 'em send the price of flour as they deem please; let 'em own the oil of the world, let 'em own the Rockefeller's counter by the drop; let 'em own all the beef grown on the boundless prairies, let 'em own the 'em, and no one'll kick, but, gosh darn 'em, when they take the pie a man's had for breakfast from the time he gets up, first scream on Bunker Hill and raise his price there's bound to be trouble, I'm fer it, knife an' fork."

"Hully ohee!" remarked Mr. Reddy Doyle, a prominent Park Row newsdealer. "Dis is de worst blow dat has ever been struck at de poor laborin' man yet. De only thing dat makes life wort' de livin' in dese days o' trusts is de fact dat a man is able to git a draw o' one in de dark an' a hunk o' pumpkin pie fer a nickel, an' now de Morgans o' de pie business take dat from us. Warl Warl! Day's not it means, let 'em put de Pie Trust on de blink. Bust down waggins and set fire to de factory. I'm fer dat."

Woe is in the land. Woe and weeping.

STEAM SCALDS WORKMAN.

Pipe Burst in Edison Power Plant and Injures Employee.

John Brennan, of No. 545 Second avenue, an employee of the Edison Power plant, at Thirty-eighth street and First avenue, was severely scalded this afternoon through the bursting of a steam pipe.

Brennan with a number of other men was working in the boiler-room, when a pipe burst and flooded the place with steam and scalding water. Brennan received the full force upon his entire body. He was taken to Bellevue Hospital.

TEMPLE FOR BOB BURDETTE.

LOS ANGELES, Oct. 23.—A company has been formed to build a \$1,000,000 temple for Robert J. Burdette, the humorist and lecturer, now pastor of the Baptist Church in this city. The plans include a \$1,000,000 block and a convention hall as sources of revenue. The structure will face on two of the leading streets of the city, extending clear across the block, and will be eight stories high. Mr. Burdette has gone East to solicit subscriptions to the stock.

Regal Shoes.

Maybe it isn't necessary
to go into this detail, but there
is so much romantic fiction in
shoe advertising, that we don't blame people for being a
trifle "gun-shy."

Well, you know, it's a heap easier to write words
than it is to make shoes. If you could just wear the
advertising instead of the shoes, it would be all right. The
same words are open to everybody's use, or misuse.
That is the reason we put buzz saws in all Regal stores
and the "Window of the Sole" on all Regal soles. The
Regal is the shoe that proves. You just keep a list of
Regal claims, come into the store and we will check them
off for you. We will prove every one of them before you
part with your \$3.50.

The Evolution of the Modern Coat.

Modern man's coat is as much a creature of evolution as modern man himself. The principal features of the coat have been gradually developed. The most important part of coat-making is the shoulder. Our "Concave" Shoulder is the greatest improvement made in men's clothes in over fifty years. It reaches the highest type of development.

When you try on one of our coats you can note the difference at once in the set of the shoulder—how much broader it makes you look and how much more style there is in our "Concave" Shoulder than in the ordinary "stuffed" shoulder. And the shape of our "Concave" Shoulder is there to stay, too. Every suit and overcoat in our store, from the lowest to the highest priced, has our "Concave" Shoulder and "Close-Fitting" Collar.

High-Grade Suits & Coats for Men

Ready for Service.

\$15.00, \$20.00, \$25.00.

We are not class tailors, nor do we discriminate. Garments at popular prices are subjected to the same high standard of tailoring as that which governs the production of the most costly suit or coat which we have to offer. Fifteen, Twenty and Twenty-five Dollars, to our mind, are popular prices. That is why we conduct our clothing shop with a variety of garments is three times greater than that of our contemporaries. But that is not all. It is apparel which is as distinctive and individual as though it were made to your measure. The cleverest tailoring talent of which we know spends its best efforts in its production. The fabrics, both in weave and design, are varied enough to express the taste and please the fancy of all manner of men.
